

10-PORT STATION * DURABLE & HEAVY-DUTY DESIGN

Discover the power of our body-worn camera docking station, designed to meet the most demanding professional requirements.

Built with a fully metal structure, it delivers outstanding durability and strength, ensuring reliable performance even in the toughest environments.

Effortless Charging: With automatic battery charging, you can eliminate the hassle of manually managing power levels. This feature ensures your devices are always ready for operation without interruption.

Versatile Management: Manage up to 10 cameras simultaneously with ease and efficiency.

Universal Compatibility: By connecting the DM-10N Docking Station either to your workstation or to our DMT-8PC Docking Station ^(*), you benefit from seamless and transparent integration with our Digital Evidence Management software* [SGPN] ^(*) for centralized management of cameras, users, and digital evidence:

Automatic file upload: Simplify your workflow with automatic transfer of camera files to the hard drive for efficient, hands-free data management.

Multi-device control: Monitor and manage up to 10 cameras simultaneously, ensuring comprehensive oversight and optimized resource management.

Automated file management: Streamline maintenance with automatic deletion of recorded files after a predefined retention period (e.g., one month), ensuring efficient storage management and regulatory compliance.

Dimensions	370 mm * 190 mm * 130 mm
Weight	2.40 kg
Power supply	Input 110–240V / Output 5–12V, 80W, 2A
USB	USB 3.0 HUB port
Number of slots	up to 10 cameras
Battery charging	Automatic
Accessories	Power cable, USB cable

^(*) Workstations, DMT-8PC docking stations, and software are sold separately.
